- Optional micro-pre-filter captures down to .5 microns
- Certified HEPA vacuum model also available

16 Gallon Quiet Dustless Wet/Dry Dust Control System Vacuum

Part Number: 16006

Many Government jobs require a HEPA vacuum when cleaning up. This HEPA vacuum doesn't just clean up but it filters so well that it cleans the air you breath. With a vacuum that outlasts most HEPA vacuums 4 to 1 you can't go wrong.

- Designed to handle extremely fine dust
- Patented filter system provides three layers of filtration
- Clean filters without opening canister
- Quiet operation, only 81 decibels
- Powerful 23,000 RPM 11.5 amp electric motor
- Tools store easily on the Wet Dry Vacuum
- Automatic air shut off for wet pickups
- Suction hose can be used for draining the 16 gallon tank
- High impact tank for years of trouble free use
- Designed to be used by the most demanding contractor
- Optional micro-pre-filter captures down to .5 microns
- Certified HEPA vacuum model also available
